Letter of Appreciation

To:

Mr. Chang Wai-Yun (The Donor)

Gigabyte Technology (GM: Mr. Etay Lee) (The Supporter)

We deeply appreciate your donation of the new cluster computers to our research laboratory of Waseda University.

As you may know, our laboratory performs high-end computer simulations of atmospheric and ocean phenomena, and the improvement that this represents to our computational capabilities is very much welcome. With them, we will be able to accelerate our understanding of how climate change affects the storm surges generated by typhoons around the Asia-Pacific regions, including Taiwan and Japan (amongst a number of other topics of research they will be used in).

We received the machines, which appear to be in good working order, and have already started to use them on our research activities. We appreciate your contribution to our educational and research activities.

We believe that the long-existing close friendship between Taiwan and Japan will continue forever.

Sincerely yours,

Tomoya Shibayama, Dr.
Professor of Civil and Environmental Engineering
Waseda University
Tokyo, Japan
